

Translate this text to Spanish:

My house is small but quite modern. My favourite room is my bedroom because it is very quiet and I can do my homework. Also, the bed is very big and comfortable and the walls are painted in blue. I do not have to share

it with my sister. She is very noisy and untidy. In my bedroom there is also a big TV and a computer on the desk. I always play videogames with my best friend because it is very fun and entertaining but we do not listen to music because it is boring. In the future, I would like to have a bigger house to invite more friends over.
